PROFILE

Frontend Developer with 4 years of experience building responsive, user-focused web interfaces with React.js and JavaScript. Skilled at translating designs into clean, maintainable, cross-browser UI and collaborating closely with backend and design teams. Currently studying German (A2 → B1) and seeking a full-time Frontend Developer position in Germany.

WORK EXPERIENCE

Frontend Developer — Segal Control | 2022 – Present

- Developed and maintained responsive user interfaces using React.js and JavaScript.
- Converted UI/UX designs into pixel-accurate, reusable components.
- Worked with backend developers to integrate REST APIs and PHP-based services.
- Improved page performance and cross-browser compatibility across the product.

PROJECTS

React.js Applications

- **IMDb Clone** — Movie browsing app with search and details view, built with React.js
- **Golestan** — React.js web application project
- **Portfolio** — Personal portfolio site showcasing projects and skills, built with React.js
- **Weather App** — Live weather lookup app using a public weather API, built with React.js

UI Clone Projects (HTML/CSS/JavaScript)

- **Coca-Cola Landing Page** — Pixel-accurate recreation of the Coca-Cola homepage
- **Digikala Clone** — E-commerce homepage clone with responsive layout
- **Essence Clone** — Cosmetics brand landing page recreation
- **Yadak Mashin (Auto Parts)** — Automotive e-commerce homepage clone
- **Petshop** — Pet store homepage UI clone
- **Starbucks** — Starbucks homepage UI clone
